## **SCRIP-SAFE and redLantern announce partnership**

CINCINNATI, Ohio – SCRIP-SAFE® International and redLantern have announced that they will partner to provide maximum benefit to students as they transfer courses from one school to another. This partnership brings together two premier student services -- redLantern's u.select school profile and SCRIP-SAFE's transcript ordering and delivery service. Schools utilizing these products will provide enhanced service to their students, streamlining the exchange of official academic transcripts.

u.select provides valuable information on more than twenty-one thousand programs from colleges across the country and users from over one hundred and eighteen countries. "This is a natural fit" said Jason Elwood, President of redLantern LLC. "By integrating redLantern and SCRIP-SAFE services, we will be able to provide our student customers with a rich array of information useful to them as they make educated decisions about their academic careers."

SCRIP-SAFE is a global leader for innovative document security solutions for both paper and electronic records. Using their secure internet services students may order and electronically deliver their transcript to a wide array of colleges and universities quickly and securely. "We are very excited to team up with redLantern," states J. James Wager, Vice President CIO of SCRIP-SAFE International. "By fostering an ongoing business relationship, we can capitalize on each other's strengths to promote our services as widely as possible for the benefit of the higher education community."

redLantern, located in Cincinnati, Ohio, provides quality software solutions and expertise to the higher education academic community. With over twenty-five years in higher education, redLantern

understands the importance of student success and is committed to providing resources to institutions and students to achieve academic goals.
